- Listen to music
- TV and movies

Organizing Daily Life

- Pay bills
- Schedule plans
- Find directions

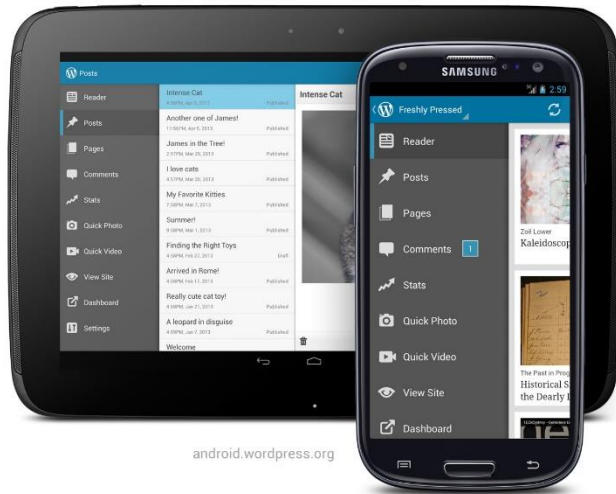

Stay Connected

- Email
- Facebook
- Skype & FaceTime
- Share photos

Creativity

- Paint and draw
- Take photos
- Write
- Write music

Getting Started

Terms

Apps: Short for “application.” Refers to programs you can install on your Android.

Widgets: Miniature Apps. Sometimes they come with other applications as a pair, and sometimes they come pre-installed.

Gestures: Shortcuts used on touch screen devices to help users navigate.

Home Button: Button on bottom front of device that takes you to the main page.

Status Bar: Provides information, such as the current time, battery level, wireless connection, and more.

Lock Screen: This will appear when the device is inactive or when first turned on. To unlock, simply drag the lock to the edge of the screen.

Settings: Lets you set preferences for Android features like email, display, or notifications.

What We Will Cover

- Turning On/Off
- Lock Screens
- Navigating
- Gestures
- Settings
- Apps and Widgets
- Maintaining your Device

On/Off & Lock Screens

Android

Turn ON: Press and hold the On/Off button for a few seconds until the lock screen appears. Slide the lock screen (see image below) to unlock the screen.

Turn OFF: Press and Hold the On/Off button until your device powers off.

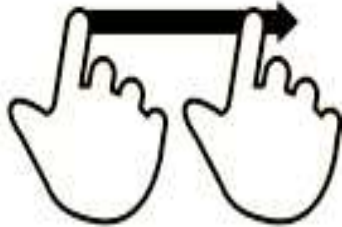

iPhone

Turn ON: Press and hold On/Off button at the top of your device until apple appears on screen.

Turn OFF: Press and hold the On/Off button until you see the power off button. Slide the power button to turn off device.

Navigating and Gestures

Drag: Place a finger on the screen and move it in chosen direction without lifting. Use to scroll or pan.

Tap: Quick up-and-down motion with a finger, lightly striking the screen. Use to select.

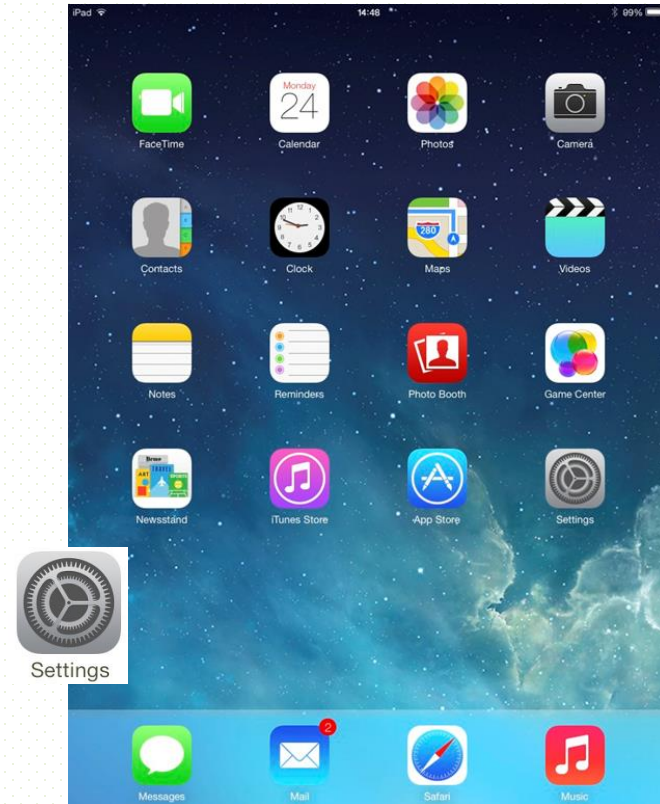

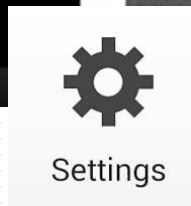

Flick: Place finger on the screen and quickly swipe in desired direction. Use to scroll or pan quickly.

Pinch: Used to zoom in and out. Place a thumb and a finger on the screen and move them apart or together without lifting them from the screen.

Maintaining your Device

Keep Your Tablet Clean

- Never spray anything directly on the screen.
- Use only water. Buy a small travel sprayer.
- Use only a clean soft cloth such as a microfiber towel.
- Depending on screen material and how hard you use it, you may want a screen protector.
- Purchase a case for shock protection and also to help keep it clean.

Security Features

- Only use apps from a reliable source (such as Google Play Store, Amazon, or App Store)
- Lock your device with a password or a pin
- Use Android Device Manager
(<http://www.google.com/devicemanager>)
- Lookout Mobile Security
(<https://play.google.com/store/details?id=com.lookout>)
- Install Anti-Virus app (AVG mobile, Avast's Mobile Security, Norton Security Antivirus)
- If you have multiple users, you can create a personal account for each (not possible on iPad)
- Watch your device like you'd watch a child. It's very easy for someone to grab it and run
